

NHS Acute Trusts Survey of Outpatient Departments 2003

The Hillingdon Hospital NHS Trust

For details on how to interpret these charts and tables, please refer to the document on the patient survey results section of the CHI website. The trusts results are not shown where there are fewer than 30 responses to a question.

Access and waiting

How long did you wait to get an outpatient appointment?

Was your appointment changed by the hospital?

How long did you wait in the outpatients department before the appointment started?

Safe, high quality, coordinated care

Before your appointment, did you know who to contact if your symptoms got worse?

Did you have confidence and trust in the doctor?

Was the doctor aware of your medical history?

Did you have confidence/trust in other healthcare professionals?

Did different members of staff give conflicting information?

Were you told about danger signals to watch for after going home?

Were you told who to contact after going home, if worried about condition/treatment?

How well organised was the outpatients department?

- Best performing 20% of trusts
- Intermediate 60% of trusts
- Worst performing 20% of trusts

◆ This trust (trust's score shown as a yellow diamond, with 95% confidence intervals marked by vertical lines on either side)

The Hillingdon Hospital NHS Trust

Better information, more choice

Before your appointment, did you know the reason for the appointment?

Did doctors explain the reasons for any treatment/action?

Were you given the right amount of information about your condition/treatment?

Were you involved in decisions about your care and treatment?

Did staff explain why any tests were needed?

Did staff tell you how you would find out the results of tests?

Did staff explain the results of tests?

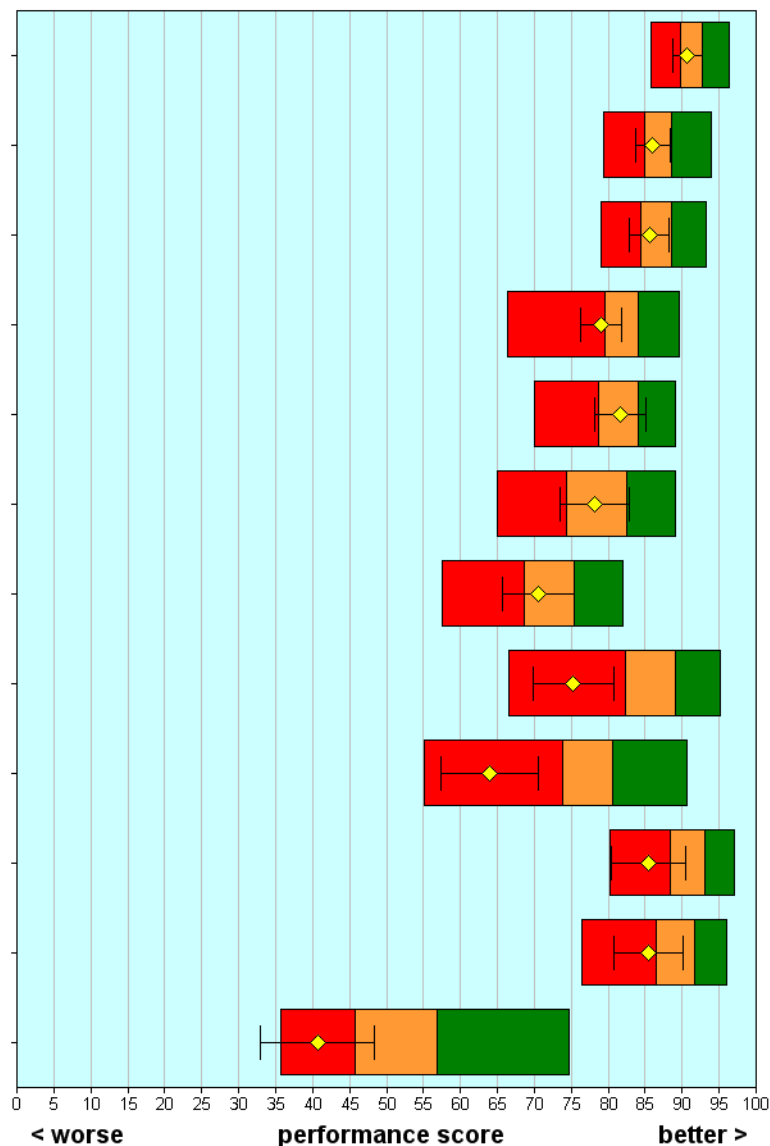

Did staff explain what would happen before any treatment?

Did staff explain the risks/benefits before any treatment?

Did staff explain how to take any new medications?

Did staff explain the purpose of any medications given to take at home?

Did staff tell you about medication side effects?

- Best performing 20% of trusts
- Intermediate 60% of trusts
- Worst performing 20% of trusts

◆ This trust (trust's score shown as a yellow diamond, with 95% confidence intervals marked by vertical lines on either side)

The Hillingdon Hospital NHS Trust

Building relationships

Did you have enough time to discuss your problem with the doctor?

Did the doctor listen to what you had to say?

Did you think the doctor was deliberately not telling you things you wanted to know?

Did the doctor answer your questions clearly?

Did other health care professionals answer your questions clearly?

Did doctors/other staff talk in front of you as if you weren't there?

Clean, comfortable, friendly place to be

Were you told how long you would have to wait for the appointment to start?

Were you told why you had to wait?

How clean was the outpatients department?

How clean were the toilets in the outpatients department?

Were you treated with respect and dignity?

Overall impression

Overall, how would you rate the care received in the outpatients department?

- Best performing 20% of trusts
- Intermediate 60% of trusts
- Worst performing 20% of trusts

◆ This trust (trust's score shown as a yellow diamond, with 95% confidence intervals marked by vertical lines on either side)
